### **DETAILED ACTION**

In view of applicants' Remarks filed on 11/21/05, the examiner found out that applicants' argument with traverse of the selection of the Restriction Requirement is persuasive. Therefore, the restriction requirement dated on 10/19/05 is withdrawn.

#### ***Allowable Subject Matter***

Claims 1-9, 11-12, 17-36 and 41-47 are owed over the prior art.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 17 and 29 are allowed because the prior art of the record does not teach or suggest an apparatus for a liquid crystal display device and a method of inspecting a liquid display device comprising a light source to radiate light onto at least one inspection switch device and thereby supplying an inspection voltage from the at least one inspection line to a corresponding one of the drive switches through the signal wirings, so as to charge a corresponding one of the capacitors as shown by Fig 5.

Independent claim 8 is allowed because applicants amended claim and added the allowable subject matter (radiating a light onto the inspection switch to turn on the inspection switch, so as to charge the one of the capacitors) in the body of claim 8.

Independent claims 41 and 44 are allowed because the prior art of the record does not teach or suggest an apparatus for a liquid crystal display device comprising at least one inspection line and at least one inspection switch device, wherein at least one inspection switch device includes a first transistor and a second transistor to be turned on in response to an output voltage of the first transistor, and wherein the at least one

inspection line includes a first inspection line to which a gate-off voltage lower than a threshold voltage of the first transistor is supplied and a gate terminal of the first transistor is connected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emily Y. Chan whose telephone number is 571-272-1956. The examiner can normally be reached on 8:30-5:30.
